

CLASS SNAPSHOT

1/2 POTOROOS

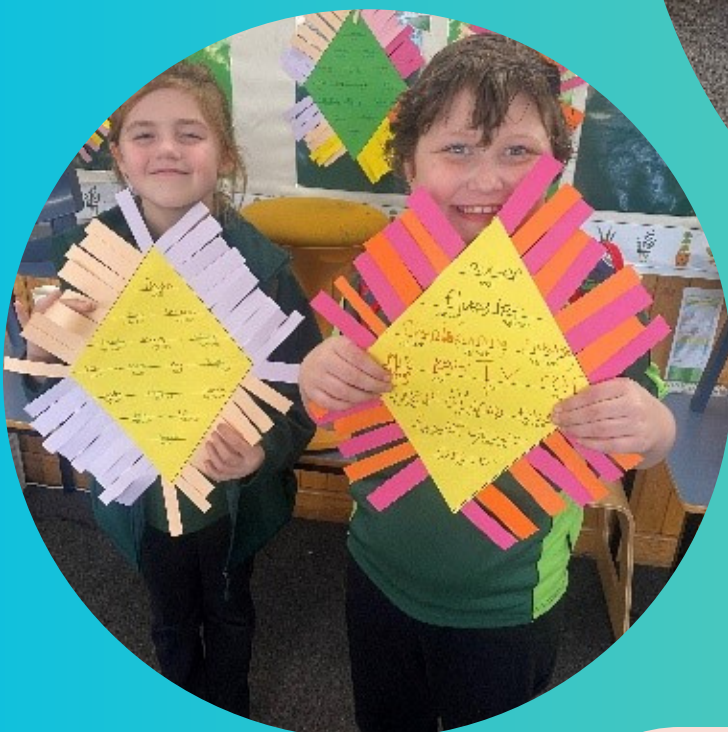

In HASS we have been exploring Australia! Learning all about our states, territories and capital cities.

Literacy: In addition to our successful literacy groups, 1/2 Potoroos have been identifying the text structures of informative texts- particularly their language features and visual features. We are currently listening to and discuss poems.

Science: This term in science, we have been investigating how seasonal changes affect animals, including identifying if animals adapt, hibernate or migrate during Winter.

Zones of Regulation: 1/2 Potoroos have been really enjoying learning about Zones- identifying if they are in the green, yellow, red or blue zone. Also strategies to help us regulate.

We are going to enjoy a well-deserved term break and can't wait to see all of the new things that we achieve in term 4!
